- Up to 1200 X 1200 dpi output resolution
- Self adhesive vinyls, banner material, film, fabric and paper substrates

Two Canon Colorado 1650
- 64" max media width
- UVgel 460 ink, CMYK
- Up to 1800 dpi output resolution
- Self adhesive vinyls, banner material, film, fabric, wall paper and paper substrates

Finishing
One Zund G3 XL 3200 digital finishing machine with routing capabilities.
One Kongsberg i-cut i-XE54 digital finishing machine
One Kongsberg i-cut i-XP44 digital finishing machine with routing capabilities.
(located at our Dallas, TX plant)

Our finishing department has the necessary equipment to cut, fold, collate, laminate, UV coat, seam and grommet all large format projects printed in either pressroom. This includes multiple flatbed cutters, RF and hot air welding equipment, and automatic grommet equipment. We also offer kit packing, sheet rolling, taping and poly bag services.
